Thanks to MarvellousMe, 90% of our parents are better engaged with their children’s learning and achievements. Grandparents and carers have joined up too!

In the last 6 months, we’ve shared over 48,000 updates with parents about their children’s school day. It’s helping families to practise topics together, and we can see it’s making a big difference in class.

We have awarded more than 7,000 badges to children, to praise their good work and positive behaviours. Each time their parents are notified instantly, making them proud and ready to say ‘Well done!’

Teachers and TAs use MarvellousMe in class on the interactive board and tablets. It promotes a positive class environment, children are excited about sharing good news with their parents, and it doesn’t add to workload at all!

The leadership portal makes it easy for us to be consistent and fair across the whole school, and to focus parent engagement on topics and values that really matter. Being able to evidence impact on groups like Pupil Premium children, and by ethnicity and gender, is an added bonus.

MarvellousMe is an exciting app that tells parents about the wonderful things that their children are learning, and pings them when they’ve been praised for good work or a great character skill.

It makes parents smile and inspires better home learning support and encouragement.

Parents. It’s positive, personal and relevant news. Finally an answer to: ‘What did you learn at school today?’

Teachers and children. It’s fast and fun. A perfect plenary aid and parent-powered praise system. Parents can’t message back, but send fun Hi5s.

Leaders. A proven way for the whole school to better engage parents. It’s focused, consistent and measurable, and underpins your improvement plan and core values. Average engagement rate is 9/10.

Governors and Inspectors. A super-efficient way to give parents the valuable information they want. Perfect for working and hard-to-reach parents, and split families.
